Subject: Floresta Gardens Gate

Hi Elmer,

This is Yunna, my parents own the residential property located I believe to the north of this project. Their property shares a wall with the Floresta Gardens condominium. We do not mind the construction of the gate and have appreciated our neighbors at this condo. We would like to please ask if we could be granted access to the gate code only when we would need to access our wall on the condo side for maintenance of wall and perhaps the plants (possibly the jasmine that has been growing on our wall, their roots are on the condo side.)

We appreciate your consideration in this matter and thank you for your time and being good neighbors.  
:)
