### SUMMARY AND BACKGROUND

Each year, a representative from the offices of Simon & Company (the City's federal government liaison) travels to San Leandro to provide an update on the federal legislative landscape as well as potential funding opportunities available over the course of the upcoming year. This visit is timed to take place in early January, prior to the U.S. Conference of Mayors Winter Meeting in late January and the National League of Cities - Congressional Cities Conference in March, at which some members of the City Council plan to attend. Similar to past years, staff from Simon & Company will attend these conferences and are available to support the Mayor or members of the City Council during their attendance.

Following the retirement of Len Simon in December 2018, the firm is now led by Jen Covino, who will provide the annual update to the City Council. In addition to receiving the above annual update, it is important for the City Council to identify policy priorities or projects that are germane to the City of San Leandro's interests at the federal level in 2020. Such documented priorities enable members of the City Council, City staff, or the City's advocates to issue letters, attend meetings, or otherwise take action as opportunities arise over the year ahead. To this end, a draft of the annual federal legislative platform is also included in the consent calendar for the City Council's consideration.

### Fiscal Impacts

The costs for the City's contract with Simon & Company for federal advocacy services, along with anticipated costs for attendance at U.S. Conference of Mayors and National League of Cities events are already appropriated in the adopted current fiscal year City budget and no additional appropriations are requested or anticipated at this time.
