**Public Works Director** 

FINANCE REVIEW: Liz Warmerdam

Interim Finance Director

TITLE: Staff Report for a City of San Leandro City Council Resolution Authorizing the

City Manager to Execute a Fourteenth Letter Amendment of the Franchise Agreement to Modify the Annual Rate Adjustment Methodology for Solid Waste, Recyclables, and Green Waste Services between the City of San Leandro and

Alameda County Industries, Inc.

### **SUMMARY AND RECOMMENDATIONS**

Staff recommends that the City of San Leandro City Council review and consider a request from Alameda County Industries, Inc. ("ACI") to modify the Franchise Agreement for Solid Waste, Recyclables, and Green Waste ("Franchise Agreement") between the City of San Leandro and ACI. The request is presented as Amendment Fourteen to the Franchise Agreement and would modify the annual rate adjustment methodology for rates effective July 1, 2020, and thereafter for the term of the Franchise Agreement. Amendment Fourteen would also modify the definition of "Multi-Family Residence" and clarify point of pickup locations for multi-family residences.

### **BACKGROUND**

The City of San Leandro entered into a Franchise Agreement with ACI for Solid Waste, Recyclables, and Green Waste Services on February 1, 2000. It will expire in January 2025. The Franchise Agreement allowed for a rate adjustment July 1 of each year, based on the Consumer Price Index for the San Francisco Bay area, as well as a rate analysis every five years. Amendment 10 to the Franchise Agreement (as attached), approved on July 20, 2009, changed the annual rate adjustment process to a Refuse Rate Index (RRI). That revised methodology was created to reflect changes in cost by focusing on six cost categories within the Consumer Price Index specific to the solid waste industry: Labor; Diesel Fuel; Vehicle Replacement; Vehicle Maintenance; Disposal and All Other. Apart from special rate adjustments in 2015 related to the Material Recovery Facility labor issue, as well as the special rate adjustment last year, the RRI has been used to modify rates since 2010.

### Rate Increases 2010-2019

<u>Year</u>	<u>Rate</u>	Reason
2010:	2.88%	Annual rate adjustment per Amendment 10
2011:	1.12%	Annual rate adjustment per Amendment 10
2012:	5.50%	Annual rate adjustment per Amendment 10
2013:	1.82%	Annual rate adjustment per Amendment 10
2015:	4.01%	Special rate adjustment per Amendment 11
2015:	8.49%	Special rate adjustment per Amendment 12
2017:	1.65%	Annual rate adjustment per Amendments 10 & 12
2018:	3.41%	Annual rate adjustment per Amendments 10 & 12
2019	7.89%	Special rate adjustment per Amendment 13

On June 17, 2019, the City Council approved ACI's request for a special rate adjustment of 7.89% effective October 1, 2019. That rate request included 3.78% contractual adjustment (using the RRI) to rates as specified in Amendment 10 to the Franchise Agreement, and an additional 4.11% increase to manage the financial impact of the Chinese government's *National Sword* policy (which significantly curtailed the volume of recyclable materials that China will allow to be imported into their country), and SB1383 implementation.

At the June 17 meeting, ACI indicated that they would come back to the City Council to request a modification to the annual rate adjustment methodology to be applied to rates effective July 1, 2020 and thereafter. The new rate adjustment methodology is intended to more accurately capture the cost of operations and reflect the unanticipated costs associated with changes in law. The existing annual rate adjustment process (RRI) has not accurately reflected ACI's true vehicle replacement costs, increases in recycling and organics processing costs, and was established prior to any state or local recycling/composting mandates.

## **Analysis**

ACI proposes a new Detailed Rate Adjustment Methodology (DRAM) to adjust rates annually. Like the RRI, the DRAM includes changes in actual labor costs, actual landfill disposal costs, and indices for fuel, vehicle repair and general costs. It also includes the following:

- Three-year average cost of container purchases
- Recycling Processing Costs
- CNG fuel costs
- Profit (expressed as an operating ratio of 0.90)

The DRAM also includes costs for depreciation and interest (as a fixed cost). These costs would only change to the extent that ACI purchases new vehicles or equipment.

As before, City franchise fees are calculated on gross revenues and recycling processing fees are calculated using an annual average CPI for the San Francisco Bay Area.

ACI is also proposing that costs be re-evaluated for the rate year commencing July 1, 2022. The cost-based adjustment would reflect actual costs for the most recent twelve-month period and

File Number: 20-052

adjust accordingly. If their actual costs exceed the indices for the prior twelve-month period, then the cost difference would be reflected in the July 1, 2022 rates.

The most significant change in the methodology is the addition of the Net Recyclables Processing Cost Adjustment Methodology (NRPCAM), indicated as Appendix F1 in Amendment 14 (Attached to the associated Resolution). The methodology calculates the change in processing costs for the Material Recovery Facility, which processes recyclables for the nine jurisdictions that ACI serves. ACI assumes a per ton cost for the operation and then applies it to the incoming recycling tons for San Leandro. A similar method is used for the other jurisdictions.

ACI includes revenues received for the sale of recyclable materials to offset processing costs. In the NRPCAM, 95% of the revenues are used to offset costs and ACI receives the remaining 5% as profit. If the change in revenues is positive, there is a greater cost offset for ratepayers. If the change in revenues is negative, the processing cost per ton increases. Currently, ACI assumes the risk associated with the change in commodity values and volatility of recycling markets. With the NRPCAM, ratepayers assume most of the risk as it affects the overall change in processing costs.

The change in recycling processing costs for the July 1, 2020 rate year is significant since 2020 is a baseline year. Total recycling processing costs for San Leandro increase from approximately \$965,000 to approximately \$1,373,000. This is a 42% increase in recycling processing costs over the current year.

Using the DRAM, rates are estimated to increase by 6.73 percent effective July 1, 2020. Rates would increase from \$32.27 to \$34.45 per month for residential customers receiving 32-gallon garbage service weekly. Rates would increase from \$141.51 to \$151.03 per month for commercial customers receiving a 1 cubic-yard bin, one time per week.

### **Previous Actions**

- Resolution No. 2000-8 approving a Franchise Agreement for Solid Waste Recyclables, and Green Waste Services between the City of San Leandro and Alameda County Industries, Inc.
- Resolution No. 2009-117 authorizing the City Manager to execute Amendment 10 to the Franchise Agreement.
- Resolution No. 2015-010 approving Amendment 11 to the Franchise Agreement.
- Resolution No. 2015-095 authorizing the City Manager to execute Amendment 12 to the Franchise Agreement.

### **Applicable General Plan Policies**

- Action 27.01-A: Source Reduction and Recycling Programs
- Action 27.01-C: Commercial and Multi-Family Residential Programs
- Action 27.01-D: Food Waste Recycling

#### **Fiscal Impacts**

File Number: 20-052

The City receives 10% franchise fees on gross revenues, plus additional per-ton fees for recycling processing. The fees are recorded as General Fund revenues. It is estimated that the City's fees will increase by \$200,000 for Fiscal Year 2020-2021 as a result of the annual rate adjustment using the Detailed Rate Adjustment Methodology.

 $<sup>^{1/}</sup>$  Rate Schedule G-NGV1 was converted to Standard Status, rather than Experimental, effective August 30, 2008,

due to Advice Letter 2945-G. <sup>2/</sup> Unless otherwise noted

 <sup>&</sup>lt;sup>3</sup> This procurement rate includes a credit of \$0.00367 per therm to reflect account balance amortizations in accordance with Advice Letter 3157-G.
 <sup>4</sup> Schedule G-PPPS (Public Purpose Program surcharge) needs to be added to the Total G-NGV1 Charge for bill calculation. See Schedule G-PPPS for details and exempt customers.

# City of San Leandro

Civic Center, 835 E. 14th Street San Leandro, California 94577

July 20, 2009

Mr. Louie Pellegrini Vice President Alameda County Industries, Inc. 601 Aladdin Avenue San Leandro, CA 94577

RE: TENTH AMENDMENT TO FRANCHISE AGREEMENT

Dear Mr. Pellegrini:

This letter is the Tenth Amendment (the "Amendment") to the Franchise Agreement for Solid Waste, Recyclables, and Green Waste Services between the City of San Leandro ("City") and Alameda County Industries, Inc. ("ACI")., dated February 1, 2000 (the "Agreement"). For good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the City and ACI hereby agree as follows:

- 1. Effective February 1, 2010, the Agreement shall renew for an additional 10 years. The Agreement may be extended beyond the 10 year term contingent upon ACI's vehicle replacement schedule, as follows: For every three (3) current collection vehicles that are replaced with natural gaspowered vehicles, the Agreement shall be extended one (1) additional year beyond the original term. Under no circumstances shall the Agreement be extended beyond January 31, 2025 unless approved by the City Council and amended only in writing, signed by the parties.
- 2. The rate adjustment process as specified in Section 6.2 of the Agreement shall be modified so that rates will be adjusted annually using a Refuse Rate Index (RRI) (as enumerated in Appendix B) in lieu of the Consumer Price Index, provided that the adjustment does not exceed ten (10) percent per annum. If an increase exceeds 10% per annum, ACI must request a Special Rate Review pursuant to the procedures in Section 6.4 of the Agreement. The parties shall no longer compare rates at five years as specified in Section 6.3 of the Agreement.
- 3. Upon approval of the governing board of the San Leandro Unified School District (SLUSD or District), as early as August 3, 2009, but no later than August 24, 2009, ACI shall provide garbage, recycling and organics collection to SLUSD facilities within the ACI service area at no charge to the District. Representatives from the City, the District and ACI will conduct waste audits at each facility prior to the start of service and again within three months of the start of service to establish waste generation rates at each facility site. Garbage service levels shall not exceed levels identified in Appendix A. Recyclables, and green waste service levels shall be determined by ACI and the District and approved by the City.

- 4. Effective July 1, 2010, the Revenue Neutrality payment specified in Section 3.5 of the Agreement, shall be adjusted on July 1 of each year to be equal to the sum of the per ton franchise fee and the per ton business license fee to be paid by the Davis Street Transfer Station on July 1 of that year.
- 5. Effective July 1, 2010, the MRF Permit Fee and the Residue Fee paid by ACI shall be adjusted by the Consumer Price Index (CPI) on July 1 of each year of the Agreement. ACI shall use the average change in CPI for the previous calendar year to calculate the adjustment.
- 6. Effective July 1, 2010, ACI shall collect household batteries from all recycling cart customers. To insure collection, customers shall place batteries in a sealed bag on top of their cart for weekly collection. The City of San Leandro shall pay for the cost to recycle Alkaline and Pile Lithium batteries. In addition, ACI shall collect latex paint, electronic waste and appliances containing freon from single-family and multi-family households as part of the Annual Bulky Goods service as specified in Sections 4.6 and 4.7 of the Agreement.
- 7. ACI shall design and print an informational brochure that identifies all of the services available to single-family households. The City and ACI will share the cost equally of mailing the brochure to every single-family household by August 1, 2010.
- 8. Effective February 1, 2010, ACI shall provide debris box service for garbage to the City at a 60% discount from the published debris box rates.
- 9. Effective July 1, 2010, and each July 1 thereafter, ACI shall share revenues on the sale of recyclable materials with ratepayers in the form of a ratepayer credit. Revenue from the sale of all recyclable materials processed at the 610 Aladdin facility, as identified from the Contractor's audited financial statements for the previous fiscal year, will be divided by the total tons of such materials during the same period, to determine the average price per ton. The average price per ton shall then be multiplied by those tons attributable to the City to establish the total dollar amount of revenue ("San Leandro Revenue") shared by ACI and ratepayers. If the average price per ton exceeds \$26, then the ratepayer credit will equal 25% of the San Leandro Revenue. If the average price per ton exceeds \$80, then the ratepayer credit will equal 75% of the San Leandro Revenue. The ratepayer credit will then be determined by taking the dollar value of the ratepayer share and dividing it by the total dollar value of all franchised revenue for the previous fiscal year to determine a percentage decrease in rates for the subsequent fiscal year. The ratepayer credit is not cumulative and will be recalculated each year. The annual revenue share shall be contingent upon all bank covenant calculations being met. In the event bank covenants are not met, the revenue share for that rate year shall be forgone.
- 10. Except as amended, the Agreement and all of its previously approved amendments, and unamended terms and provisions shall remain in full force and effect.

Please indicate Alameda County Industries, Inc.'s acceptance of this Amendment by signing and returning to me a copy of the Amendment.

Date:

Very truly yours,

Stephen L. Hollister

City Manager

Accepted by Alameda County Industries, Inc.

Louie Pellegrini, Vice President

1260614.1

<sup>\*</sup>Bancroft currently has a 40 yard debris box and is charged \$200 per month. If ACI provides service they will switch to the same service level as Wilson School as shown above.

<sup>\*\*</sup> The Adult School Office, Jefferson Elementary, and San Leandro High are excluded from the agreement since they are not located within the ACI service area.

**APPENDIX B** 

## REFUSE RATE INDEX SAN LEANDRO

The "Refuse Rate Index" adjustment shall be calculated in the following manner:

- 1. The expenses of the collection services for the designated fiscal period shall be prepared in the format set forth in the Operating Cost Statement Description on the following page of this Exhibit.
- 2. The expenses of the collection services shall be broken down into the following six cost categories: Labor; Diesel Fuel; Vehicle Replacement; Vehicle Maintenance; Disposal and All Other. Each cost category is assigned a weighted percentage factor on that cost category's proportionate share of the total of the costs shown for all cost categories.
- 3. The following indices published by the United States Department of Labor, Bureau of Labor Statistics (BLS), are used to calculate the adjustment for each diesel fuel, vehicle Replacement, Vehicle Maintenance and All Other. Labor and disposal shall be calculated using the actual change in values from year to year. The change in each index is calculated on a twelve-month period in accordance with the terms of the Agreement using the average change in the index from the previous calendar year. In the event any index is discontinued, a successor index shall be selected by CITY. Successor indices shall be those indices that are most closely equivalent to the discontinued indices as recommended by the BLS.

Vehicle Maintenance	Series ID: wpu11440378 Parts Attachments and accessories
Disposal	Actual Values Disposal Costs
All Other	Series ID: cuur0000sa0 of Consumer Price Index, All Urban Consumers, All Items

4. The percentage weight for each cost category is multiplied by the change in each appropriate index to calculate a weighted percentage for each cost category. The weighted percentage changes for each cost category are added together to calculate the Refuse Rate Index (see Example).

### **APPENDIX B**

## **Operating Cost Statement - Description**

Labor:

List all operations and maintenance salary accounts.

List payroll tax accounts, health and welfare, payroll insurance and

pension directly related to the above salary accounts.

**Diesel Fuel:** 

List all diesel fuel accounts.

## Vehicle Replacement:

List all collection and collection related vehicle depreciation accounts.

List all vehicle lease or rental accounts related to collection or collection

related vehicles.

### Vehicle Maintenance:

List all collection or collection related vehicle parts accounts.

Disposal:

List all disposal costs

All Other:

List all other expense accounts related to the services provided under this Agreement. This category includes non-union labor, insurance including general liability, fire, truck damage, extended coverage; rent on property, truck licenses and permits; real and personal property taxes; telephone and other utilities; employee uniforms; safety equipment; general yard repairs and maintenance; non-diesel fuel; office supplies; postage; trade association dues and subscription; advertising; employee retirement or

profit sharing contributions; and miscellaneous other expenses.

# City of San Leandro

Civic Center, 835 E. 14th Street San Leandro, California 94577 www.sanleandro.org

June 17, 2019

Mr. Louie Pellegrini Vice President Alameda County Industries, Inc. 601 Aladdin Avenue San Leandro, CA 94577

RE: THIRTEENTH AMENDMENT TO FRANCHISE AGREEMENT

Dear Mr. Pellegrini:

This letter is the Thirteenth Amendment (the "Amendment") to the Franchise Agreement for Solid Waste, Recyclables, and Green Waste Services between the City of San Leandro and Alameda County Industries, Inc., dated February 1, 2000, as previously amended (the "Agreement"). For good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the City of San Leandro and Alameda County Industries, Inc. (the "Parties"), hereby agree as follows:

- 1. Effective October 1, 2019, ACI is authorized to implement a 7.89% increase on all rates.
- 2. The 7.89% rate increase includes:
  - .39% increase for costs associated with unanticipated recycling market impacts related to the China Sword initiative;
  - 3.72% increase for costs associated with the new commercial organics collection route as mandated by state and local law;
  - 1.65% increase for incremental labor increases at the Material Recovery Facility as specified in Amendment Eleven of the Agreement;
  - .88% <u>decrease</u> for recycling revenue share as specified in Amendment Ten of the Agreement; and
  - 3.01% increase for annual rate adjustment process as specified in Amendment Ten of the Agreement.
- 3. It is the Parties' intention to discuss a new rate adjustment process and consider an amendment to the Agreement accordingly prior to any rate adjustment under Amendment Ten effective July 1, 2020.

- 4. Such amendment to the Agreement will be brought before the San Leandro City Council for approval before February 1, 2020.
- 5. Except as amended hereby, the Agreement (including all previous amendments) shall remain in full force and effect.

Please indicate Alameda County Industries, Inc.'s acceptance of this Amendment by signing and returning to me a copy of the Amendment.

Very truly yours,

Jeff Kay City Manager

Accepted by Alameda County Industries, Inc.

Louie Pellegrini, Vice President

# City of San Leandro City Council Meeting

Special Rate Review Request from Alameda County Industries June 17, 2019

# Overview

# Request:

- City Council approve a 7.89% increase on all solid waste, recycling and green waste rates, effective October 1, 2019
- Parties re-evaluate the annual rate adjustment methodology (established in 2010) to capture unanticipated operational costs before the next annual adjustment on July 1, 2020.

093

# Rate Increase Request

# Elements of 7.89% Rate Increase Request

# **Contractual**

- 3.01% increase for annual rate adjustment
- .88% decrease for recycling revenue share
- 1.65% increase for incremental labor increases for MRF

**Total: 3.78%** 

# **For Consideration**

- .39% increase for recycling market impacts - China Sword initiative
- 3.72% increase for organics collection route

**Total: 4.11%** 

# Rate Impacts

# Monthly Solid Waste Rates

Customer	Service Level	Rate as of 7/1/18	Rate with 3.78% Contractual Adjustment	Rate with Additional 4.11% Request (7.89% Total)

2013	1.82%	Annual Adjustment – RRI
2015	4.01%	Special Rate Adjustment – Amendment 11
2015	8.49%	Special Rate Adjustment – Amendment 12
2017	1.65%	Annual Adjustment – RRI + MRF Labor
2018	3.41%	Annual Adjustment – RRI + MRF Labor

1098

# SB 1383

# Future Costs Associated with SB 1383

- Requires 75% reduction of organic waste disposal and 20% increase recovery of currently disposed edible food by 2025
- Highly prescriptive requirements for cities and haulers
  - Provide organics collection services to all residents and businesses
  - Conduct education and outreach
  - Procure standardized cart and bin colors
  - Perform regular inspection of loads
  - Maintain and provide substantive record-keeping and reporting
  - Secure organic waste disposal capacity
- Regulations take effect January 1, 2022

1099

# Considerations

# Other Considerations

- Higher than anticipated increases in vehicle replacement costs
- Higher material recovery facility processing costs:
  - Increase volumes of materials
  - Requirements for cleaner end-product (additional sorting)
- Higher organics processing costs:
  - Increased volumes of materials
  - Requirements to reduce contamination (i.e. plastics)
  - Possible increases in transportation costs

Interim Finance Director

TITLE: RESOLUTION of the City of San Leandro City Council Authorizing the City

Manager to Execute a Fourteenth Letter Amendment of the Franchise

Agreement to Modify the Annual Rate Adjustment Methodology for Solid Waste, Recyclables, and Green Waste Services between the City of San Leandro and

Alameda County Industries, Inc.

WHEREAS, the City of San Leandro ("City") and Alameda County Industries, Inc. ("ACI"), executed that certain Franchise Agreement for Solid Waste, Recyclables, and Green Waste Services between the City of San Leandro and Alameda County Industries, Inc., dated February 1, 2000 ("Franchise Agreement"); and

WHEREAS, the Franchise Agreement has been amended by the City and ACI from time to time; and

WHEREAS, pursuant to the Fourteenth Letter Amendment, the City and ACI agree to modify Sections 6.2 and 6.3 of the Franchise Agreement and revise Exhibit F "Schedule of Rates" for the purpose of using a new annual rate adjustment methodology for rates effective July 1, 2020, and thereafter; and

WHEREAS, pursuant to the Fourteenth Letter Amendment, the City and ACI agree to change the definition of "Multi-Family Residence" and modify Sections 4.7D and 4.8D to clarify "Point of Pickup" locations for multi-family residences; and

WHEREAS, the City Council is familiar with the contents thereof; and

WHEREAS, the City Manager recommends approval of said amendment to the Franchise Agreement.

NOW, THEREFORE, the City Council of the City of San Leandro does RESOLVE as follows:

That said Fourteenth Letter Amendment is hereby approved and execution by the City Manager is hereby authorized.

March 2, 2020

Mr. Louie Pellegrini Vice President Alameda County Industries, Inc. 601 Aladdin Avenue San Leandro, CA 94577

RE: FOURTEENTH AMENDMENT TO FRANCHISE AGREEMENT

Dear Mr. Pellegrini:

This letter is the Fourteenth Amendment (the "Amendment") to the Franchise Agreement for Solid Waste, Recyclables, and Green Waste Services between the City of San Leandro and Alameda County Industries, Inc., dated February 1, 2000, as previously amended (the "Agreement"). For good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the City of San Leandro and Alameda County Industries, Inc. (the "Parties"), hereby agree as follows:

- 1. Effective February 1, 2020, the definition of "Multi-Family Residence" in Article 1 of the Agreement is amended to read as follows"
  - "Multi-Family Residence "Multi-Family Residence" means any Residential complex, building or structure, or portion thereof, other than a Single-Family Residence, used for residential purposes irrespective of whether residence therein is transient, temporary or permanent and having five (5) or more distinct living units. Such Multi-Family Residences shall have an adequate volume of centralized Solid Waste, Recyclable Materials, and Organic Materials Collection service for all units on the Premises which are billed to one (1) Owner (or their designated representative) at one (1) address."
- 2. Effective February 1, 2020, Section 4.7D. of the Agreement is amended to read as follows:
  - "D. <u>Point of Pickup</u>. The Customers shall accumulate Solid Waste and Green Waste at locations which are mutually agreed upon by the Customer and the Contractor and which are convenient for collection by the Contractor. Where mutual agreement is not reached, the City Representative shall designate the location. The Contractor shall offer to Collect Solid Waste and Green Waste from Carts at a centralized location selected by Owner including Curbside, backyard or sideyard locations."
- 3. Effective February 1, 2020, Section 4.8D. of the Agreement is amended to read as follows:
  - "D. <u>Point of Pickup</u>. Multi-Family Residence Customers shall accumulate Recyclable Materials at locations which are mutually agreed upon by the Customer and the Contractor. Where mutual agreement is not reached, the City Representative shall designate the location(s). The Contractor shall offer to Collect Recyclable Materials from Carts at a centralized location selected by Owner including Curbside, backyard or sideyard locations."

- 4. Effective February 1, 2020, the rate adjustment process specified in Amendment 10 to the Agreement, and previously specified in Section 6.2 and Section 6.3 of the Agreement, shall be modified so that rates will be adjusted annually using the Detailed Rate Adjustment Methodology set forth in this Amendment, including the attached Exhibit F, provided that the adjustment does not exceed ten (10) percent per annum. If an annual adjustment would exceed 10%, ACI must request a Special Rate Review pursuant to the procedures in Section 6.4 of the Agreement. The Detailed Rate Adjustment Methodology replaces in its entirety the rate adjustment methodology set forth in Amendment 10, Section 6.2, Section 6.3, and the prior Exhibit F to the Agreement.
- 5. Except as amended hereby, the Agreement (including all previously approved amendments) shall remain in full force and effect.

Please indicate Alameda County Industries, Inc.'s acceptance of this Amendment by signing and returning to me a copy of the Amendment.

Very truly yours,
Jeff Kay City Manager
Accepted by Alameda County Industries, Inc.
Trecepted by Thumbed County Industries, Inc.
Louie Pellegrini, Vice President

# EXHIBIT F DETAILED RATE ADJUSTMENT METHODOLOGY

The Detailed Rate Adjustment Methodology shall consist of two types of annual adjustments: indexed-based or cost-based, as set forth in the table below.

	Rate Period Adjustment Type	e
Rate Period	<b>Commencement Date</b>	<b>Adjustment Method</b>
One	July 1, 2020	Baseline
Two	July 1, 2021	Index-Based
Three	July 1, 2022	Cost-Based
Four	July 1, 2023	Index-Based
Five	July 1, 2024	Index-Based
Six	July 1, 2025	Index-Based

I. The index-based method involves application of indices to various costs that comprise the Total Annual Costs for the current Rate Period (i.e., July 1 through June 30) to determine the Total Calculated Costs for the coming Rate Period. In addition, disposal and processing costs will be adjusted to reflect actual tonnage collected during the most-recently completed 12-month period. The Total Calculated Costs projected for the coming Rate Period divided by the Total Calculated Costs for the current Rate Period is the Rate Adjustment Factor, which shall be rounded to the nearest thousandth. The Rate Adjustment Factor is applied to each of the current Rates to determine the Rates for the coming Rate Period.

The following indices published by the United States Department of Labor, Bureau of Labor Statistics (BLS), are used to calculate the adjustment for each vehicle fuel, vehicle maintenance and all other costs, with the exception of CNG Fuel which shall use Schedule G-NGV1, compiled and published by the Pacific Gas and Electric Company Analysis and Rate Department and reported monthly in its "Gas RateFinder" publication (http://www.pge.com/tariffs). Labor, Disposal and other tip fees shall be calculated using the actual change in values from year to year. The change in each index is calculated on a twelve-month period using the average change in the index from the previous calendar year. In the event any index is discontinued, a successor index shall be selected by the City. Successor indices shall be those indices that are most closely equivalent to the discontinued indices as recommended by BLS.

The Cost Categories for the indexed-based method are set forth below.

Cost Category	Indexed-Based Method			
Labor Costs	Prior Rate Period approved costs adjusted by Actual Values Teamster Local 70 Union Agreement and Automotive Machinist Local 1546 Union Agreement			
Vehicle Maintenance Costs	Prior Rate Period approved costs multiplied by Motor Vehicle Maintenance and Repair Index (CUUR0000SETD)			
	Prior approved Rate Period approved costs multiplied by			
Transportation Costs	Actual per ton transportation costs multiplied by most recent twelve- month tonnage transported			
Disposal and other Tip Fees	Disposal and other tip fees shall be calculated using the actual change in values from year to year multiplied by total tonnage for the most recently completed twelve-month period			
Cost Category	Indexed-Based Method			

Depreciation Expense	Depreciation expense is fixed at \$1,026,668.50 for Rate Period One through Six unless additional financings of trucks and equipment are approved by City	
Container Replenishment Fund	Prior three-year average of container purchases	
Net Recyclables Processing Costs	See Appendix F1	
Diesel Fuel	Prior Rate Period approved costs multiplied by	
Diesei Fuei	Diesel Fuel Index (WPU057303)	
CNG Fuel	Prior Rate Period approved costs multiplied by Schedule G-NGV1, compiled and published by the Pacific Gas and Electric Company	
General & Administrative Costs	Prior Rate Period approved costs multiplied by CPI - U (CUURS49BSA0)	
Profit Calculation	Profit for the coming Rate Period will be calculated by dividing the Total Calculated Costs projected for the coming Rate Period by an operating ratio of (.90) and subtracting the result from such Total Calculated Costs	
Interest Expense	Interest Expense is Fixed at \$306,727.97 for Rate Period One through Six unless additional financings of trucks and equipment are approved by City	
Other Operating Costs	Prior Rate Period approved costs multiplied by CPI - U (CUURS49BSA0)	
City Fees	Adjust by actual change	

An example of the indexed-based method is set forth below.

Indexed-Based Method Example	A	В	C
Costs Categories	Rate Period One	Indices	Rate Period Two
_			
Labor Costs	\$4,764,919.61		\$4,931,215.30
Vehicle Maintenance Costs	\$403,319.26	103.24%	\$416,386.80
Transportation Costs	\$2,232,200.19	103.49%	\$2,564,651.57
Depreciation Expense	\$1,026,688.60		\$1,026,688.60
Container Replenishment Fund			\$223,165.87
Other Operating Costs:			
Uniforms	\$24,524.96	103.49%	\$25,380.88
Insurance	\$274,323.93	103.49%	\$283,897.84
Yard Rent	\$301,456.50	103.49%	\$311,977.33
Battery Processing	\$0.00		\$0.00
Other Costs	\$26,078.48	103.49%	\$26,988.62
Other Tip Fees:			
Net Composting Cost	\$819,411.02		\$897,941.01
Misc. Materials C&D Wood Other	\$219,880.23		\$181,215.04
Diesel Fuel	\$28,094.85	92.59%	\$26,013.02
CNG Fuel	\$313,121.43	111.70%	\$349,756.64
General & Administrative Costs:			
General & Admin	\$1,512,202.38	103.49%	\$1,564,978.25
Total General & Administrative Costs	\$1,512,202.38	3.49%	\$1,564,978.25
<b>Total Annual Costs of Operations</b>	\$11,946,201.45		\$12,830,236.77
Indexed-Based Method Example	A	В	C
Costs Categories	Rate Period One	Indices	Rate Period Two

Operating Ratio	\$1,327,355.72	7.40%	\$1,425,581.86
Disposal Fees:			
Solid Waste Disposal Costs	\$1,958,023.14	-3.34%	\$1,892,622.41
Net Recyclables Processing Costs	\$964,557.47	42.31%	\$1,372,692.33
Interest Expense	\$306,727.97		\$306,727.97
Total Pass-Though Costs	\$3,229,308.58	10.61%	\$3,572,042.71
Total Calculated Costs Before City Fees	\$16,502,865.74	8.03%	\$17,827,861.35
City and Regulatory Fees:			
Franchise Fees	\$1,606,641.84		\$1,798,003.02
Revenue Neutrality Fee	\$92,316.78	103.84%	\$121,064.13
County Fees	\$886.78	103.84%	\$920.83
Total City Fees	\$1,699,845.40	12.95%	\$1,919,987.99
Total Calculated Costs	\$18,202,711.14	8.47%	\$19,744,830.95

II. The cost-based method examines the actual impact of changes in costs, the number of Customers, and the service level of Customers. Pursuant to the cost-based method, the Rate Adjustment Factor equals the Total Calculated Costs projected for the coming Rate Period divided by the Total Calculated Costs for the current Rate Period, which shall be rounded to the nearest thousandth. The Total Calculated Costs for the current Rate Period shall be calculated by multiplying the Gross Revenue for the most recently completed twelve months by the Rate Adjustment Factor used to determine Rates for the then-current Rate Period.

The Cost Categories for the indexed-based method are set forth below.

Cost Category	Cost-Based Method
Labor Costs	Actual costs from the most recent audited financial statement adjusted by Actual Values Teamster Local 70 Union Agreement and Automotive Machinist Local 1546 Union Agreement
Vehicle Maintenance Costs	Actual costs from the most recent audited financial statement multiplied by Motor Vehicle Maintenance and Repair Index (CUUR0000SETD)
Transportation Costs	Actual costs from the most recent audited financial statement multiplied by actual per ton transportation costs multiplied by most recent twelve-month tonnage transported
Disposal and other Tip Fees	Disposal and other tip fees shall be calculated using the actual change in values from year to year multiplied by total tonnage for the most recently completed twelve-month period
Depreciation Expense	Depreciation expense is fixed at \$1,026,668.50 for Rate Period One through Six unless additional financings of trucks and equipment are approved by City
Container Replenishment Fund	Prior three-year average of container purchases
Net Recyclables Processing Costs	See Appendix F1
Cost Category	Cost-Based Method
Diesel Fuel	Actual Costs from the most recent audited financial statement multiplied by Diesel Fuel Index (WPU057303)

CNG Fuel	Actual Costs from the most recent audited financial statement multiplied by Schedule G-NGV1, compiled and published by the Pacific Gas and Electric Company
Other Operating Costs	Actual costs from the most recent audited financial statement multiplied by CPI - U (CUURS49BSA0)
General & Administrative Costs	Actual Costs from the most recent audited financial statement multiplied by CPI - U (CUURS49BSA0)
Profit Calculation	Profit for the coming Rate Period will be calculated by dividing the Total Calculated Costs projected for the coming Rate Period by an operating ratio of (.90) and subtracting the result from such Total Calculated Costs
Interest Expense	Interest Expense is Fixed at \$306,727.97 for Rate Period One through Six unless additional financings of trucks and equipment are approved by City
City Fees	Adjust by actual change

An example of the cost-based method is set forth below.

Cost-Based Method Example	A	В	C	D
Costs Categories	Rate Period Two	Audited Costs Year Ending June 30, 2021	Indices	Rate Period Three
Labor Costs	\$4,931,215.30	\$4,980,527.46		\$5,154,347.87
Vehicle Maintenance Costs	\$416,386.80	\$420,550.67	103.24%	\$434,176.51
Transportation Costs	\$2,564,651.57	\$2,590,298.09	103.49%	\$2,680,699.49
Depreciation Expense	\$1,026,668.60	\$1,057,468.66		\$1,026,668.60
Container Replenishment Fund	\$223,165.87	\$225,397.53		\$227,651.51
Other Operating Costs:				
Uniforms	\$25,380.88	\$25,634.69	103.49%	\$26,529.34
Insurance	\$283,897.84	\$286,736.81	103.49%	\$296,743.93
Yard Rent	\$311,977.33	\$315,097.11	103.49%	\$326,093.99
Battery Processing				
Other Costs	\$26,988.62	\$27,258.51	103.49%	\$28,209.83
Other Tip Fees:				
Net Composting Cost	\$897,941.01	\$906,920.42		\$925,058.83
Misc. Materials C&D Wood Other	\$181,215.04	\$183,027.19		\$186,687.73
Diesel Fuel	\$26,013.02	\$26,273.15	101.00%	\$26,535.88

# APPENDIX F1 NET RECYCLABLES PROCESSING COST ADJUSTMENT METHODOLOGY

### 1. General

The purpose of this Appendix F1 is to describe and illustrate the method by which the Contractor will calculate the annual adjustment to Net Recyclables Processing Costs under Exhibit F, regardless of the adjustment method used for each Rate Period. The intent of the Parties is to limit the adjustment for such Processing costs to inflationary indices, but allow adjustment for both the value of Recyclable commodities and Disposal costs based on the actual operating results of the Approved Recyclable Materials Processing Facility.

### 2. Adjustment of Net Recyclables Processing Costs

The cost categories of the main components of Net Recyclables Processing Costs are presented in detail in Section 3 below. Adjustments to these components to calculate costs for the coming Rate Period shall be calculated as follows:

### A. Total Annual Cost of Operations

- 1. **Labor-Related Costs.** The Labor-Related Costs component of the Net Recyclables Processing Costs for the then-current Rate Period is multiplied by one plus the Annual Percentage Change in the CPI-U.
- 2. **Repairs and Maintenance.** The Repairs and Maintenance Costs component of the Net Recyclables Processing Costs for the then-current Rate Period is multiplied by one plus the Annual Percentage Change in the CPI-U.
- 3. **Transportation.** The Transportation Costs component of the Net Recyclables Processing Costs for the then-current Rate Period is multiplied by one plus the percentage change from one Rate Period to another resulting from the calculation in Section 2.B below.
- 4. **General and Administrative.** The General and Administrative Costs component of the Net Recyclables Processing Costs for the then-current Rate Period is multiplied by one plus the Annual Percentage Change in the CPI-U.
- 5. **Other Operational.** The Other Operational Costs component of the Net Recyclables Processing Costs for the then-current Rate Period is multiplied by one plus the Annual Percentage Change in the CPI-U.
- 6. **Depreciation.** The Depreciation Costs component of the Net Recyclables Processing Costs is one million three hundred and four thousand twelve dollars and nineteen cents (\$1,304,012.19) per year for all Rate Periods and is not adjusted.
- 7. **Interest.** The Interest Costs component of the Net Recyclables Processing Costs is three hundred and three thousand six hundred and forty-nine dollars and twenty-three cents (\$303,649.23) per year for all Rate Periods and is not adjusted.
- 8. **Total Annual Cost of Operations.** The Total Annual Cost of Operations portion of the Net Recyclables Processing Costs for the coming Rate Period equals the sum of the costs calculated in subsections (1) through (7) above.
- **B.** Residue Disposal Cost. The Residue Disposal Costs shall equal the total actual cost of Disposal for any and all Residue which cannot be marketed by Contractor. The per-Ton cost of Disposal for the purposes of this Appendix F1 may not exceed the Disposal tip fee at the Designated Disposal Facility. Contractor shall

engage a third party to design and perform a Residue characterization of the Recyclable Materials Processed at the Approved Recyclable Materials Processing Facility a minimum of one time per calendar year. Contractor shall propose a study methodology that must include separately Processing at least thirty (30) Tons of Recyclable Materials, stratified across no fewer than three distinct days of service, from the City at the Approved Recyclable Materials Processing Facility under normal operating conditions for the facility (i.e. staffing levels, belt speed, burden depth, etc.). The methodology must be approved by the City Contract Manager in writing prior to Contractor conducting such a study. The results of that study shall be used to determine the allowable level of Residue Disposal Costs for the upcoming Rate Period. The City shall be notified at least thirty (30) days in advance of each annual study and Contractor shall invite the City Contract Manager to observe all aspects of the study.

- C. Recyclable Commodity Value. The Recyclable Commodity Value shall equal the net of total gross revenues for the sale of marketable materials less the cost paid to buyers for marketable materials by the Approved Recyclable Materials Processing Facility as a result of marketing Processed Recyclable Materials.
- **D. Profit.** Contractor's profit shall equal five percent (5%) of the total Recyclable Commodity Value plus an operating ratio of ninety five percent (95%) on the Total Annual Cost of Operations calculated in subsection 2.A.8 above.
- **E. Net Recyclables Processing Costs.** The Net Recyclables Processing Costs shall equal the Total Annual Cost of Operations calculated in subsection 2.A.8 above, plus the Residue Disposal Cost, less Recyclable Commodity Value, plus Profit.
- **F. Per Ton Net Recyclables Processing Costs.** The Net Recyclables Processing Costs shall be divided by the total Tons Processed, from all sources, by the Approved Recyclable Materials Processing Facility.
- **G.** Net Recyclables Processing Costs. The total Net Recyclables Processing Costs to be used under Exhibit F, regardless of which adjustment method is used for a given Rate Period, shall equal the Per Ton Net Recyclables Processing Costs multiplied by the Tons of Recyclable Materials Collected by Contractor during the most recently completed twelve-month period.

### 3. Components of Net Recyclables Processing Costs

The table below presents Contractor's proposed (annualized) cost components for the Approved Recyclable Materials Processing Facility. These values shall form the baseline for calculating all adjustments under this Appendix F1.

Cost Components of Net Recyclables Processing Costs	Most recent 12 months	Index Method	This Period	Annualized for next 12 months
Total All Tons Collected (includes sources less than 12 months)	55,337.53			67,332.21
Recyclable Commodity Value	\$3,951,741.92	Per Section 2C.		\$2,852,694.46
Recyclable Commodity Value Per Ton	\$58.02	Tel section 2e.		\$42.37
Residue Disposal Cost	\$1,376,156.31	Per Section 2B	100.00%	\$1,376,156.31
Depreciation	\$1,304,012.19	Per Section 2A6.	100.00%	\$1,304,012.19
Labor-Related Costs	\$5,964,027.88	CPI-U	103.49%	\$6,172,172.45
Other Operational Costs	\$541,315.81	CPI-U	103.49%	\$560,207.73
Repairs and Maintenance	\$429,123.82	CPI-U	103.49%	\$444,100.24
Transportation	\$1,347,962.37	Per Section 2A3.	100.00%	\$1,347,962.37
Interest	\$303,649.23	Per Section 2A7.	100.00%	\$303,649.23
General and Administrative	<u>\$983,504.40</u>	CPI-U	103.49%	<u>\$1,017,828.70</u>
Total Annual Cost of Operations	\$12,249,752.01			\$12,526,089.23
Total Annual Cost Per Ton	\$179.87			\$186.03
Profit - per ton	\$8.99			\$9.30
Per Ton Net Recyclables Processing Costs	<u>\$130.83</u>			<u>\$152.97</u>
Total Net Recyclables Processing Costs Required	<u>\$8,910,497.69</u>			\$10,299,699.23
Net Recyclables Processing Costs - San Leandro			8,973.70	\$1,372,692.33
Total San Leandro				\$1,372,692.33
