**TITLE:** Staff Report for a City of San Leandro City Council Resolution to Approve and Authorize the City Manager to Execute a Non-Professional Services Agreement with Denali Water Solutions, LLC for \$244,250 for the Water Pollution Control Plant Biosolids Haul 2020-2021 Project and to Appropriate \$34,250 from the Water Pollution Control Plant Enterprise Fund Balance Reserve for the Purpose of Hauling Biosolids

---

### SUMMARY AND RECOMMENDATIONS

Staff recommends City Council adopt a Resolution to approve and authorize the City Manager to execute a Non-Professional Services Agreement with Denali Water Solutions, LLC for \$244,250 for the Biosolids Haul 2020-2021 project and to appropriate \$34,250 from the Water Pollution Control Plant (WPCP) enterprise fund balance reserve.

This project will remove approximately 5,000 tons of biosolids from WPCP drying beds.

### ANALYSIS

As part of the wastewater process, biosolids are removed from the wastewater. They are treated in anaerobic digesters and then thickened to about 15% solids concentration. The biosolids are then spread on drying beds to air dry, which generally happens during the summer months. Until recently, the Water Pollution Control Plant had 13 drying beds. However, the solar panel installation and stockpile of construction soil has reduced the drying beds to seven. This causes the biosolids layer in each bed to be thicker and to take longer to dry. As a result, the biosolids that are transported have a higher water content and cost more to haul than dryer biosolids. However, market conditions in the hauling sector have improved and the price per ton to haul biosolids has decreased from when the project was last bid in 2019.

In the future, two drying beds will be returned to service by relocating the stockpiled construction soil and rehabilitating the beds. In addition, WPCP staff plans to explore purchasing equipment to speed the drying process.

This project was competitively bid and received seven qualified bids. Denali Water Solutions, LLC submitted the low bid of \$48.85 per ton, totaling \$244,250 for 5,000 tons.

**Fiscal Impacts**

This project will cost the Water Pollution Control Plant Enterprise Fund \$244,250. The requested appropriation will cover these costs when combined with other budgeted funds.

**Budget Authority**

The total Fiscal Year 2020-2021 cost to haul biosolids will be \$244,250. \$210,000 was appropriated for biosolids hauling in the Fiscal Year 2020-2021 budget. Staff requests City Council approval to appropriate \$34,250 from the Water Pollution Control Plant Enterprise fund balance to account 593-51-002-5190 to cover the additional costs.

**Section 1. SERVICES.** Subject to the terms and conditions set forth in this Agreement, Contractor shall provide to City the services described in the Scope of Work attached as Exhibit A at the time and place and in the manner specified therein. In the event of a conflict in or inconsistency between the terms of this Agreement and Exhibit A, the Agreement shall prevail.

- 1.1 **Term of Services.** The term of this Agreement shall begin on the Effective Date and shall end on November 30, 2022, the date of completion specified in Exhibit A, and Contractor shall complete the work described in Exhibit A on or before that date, unless the term of the Agreement is otherwise terminated or extended, as provided for in Section 8. The time provided to Contractor to complete the services required by this Agreement shall not affect the City's right to terminate the Agreement, as referenced in Section 8.
- 1.2 **Standard of Performance.** Contractor shall perform all services required pursuant to this Agreement in the manner and according to the standards observed by a competent practitioner of the profession in which Contractor is engaged.
- 1.3 **Assignment of Personnel.** Contractor shall assign only competent personnel to perform services pursuant to this Agreement. **Section 3. FACILITIES AND EQUIPMENT.** Except as set forth herein, Contractor shall, at its sole cost and expense, provide all facilities and equipment that may be necessary to perform the services required by this Agreement. City shall make available to Contractor only the facilities and equipment listed in this section, and only under the terms and conditions set forth herein. Contractor shall make a written request to City to use facilities or equipment not otherwise listed herein.

This requirement shall apply continuously and not be limited to normal working hours.

Contractor shall take all necessary precautions and provide all necessary safeguards to prevent personal injury and property damage. Consistent with the following provisions, Contractor shall provide proof satisfactory to City of such insurance that meets the requirements of this section and under forms of insurance satisfactory in all respects, and that such insurance is in effect prior to beginning work. Contractor shall maintain the insurance policies required by this section throughout the term of this Agreement. The cost of such insurance shall be included in the Contractor's bid. Contractor shall not allow any subcontractor to commence work on any subcontract until Contractor has obtained all insurance required herein for the subcontractor(s) and provided evidence to City that such insurance is in effect. VERIFICATION OF THE REQUIRED INSURANCE SHALL BE SUBMITTED AND MADE PART OF THIS AGREEMENT PRIOR TO EXECUTION. Contractor shall maintain all required insurance listed herein for the duration of this Agreement.

The Statutory Workers' Compensation Insurance and Employer's Liability Insurance shall be provided with limits of not less than \$1,000,000 per accident. In the alternative, Contractor may rely on a self-insurance program to meet these requirements, but only if the program of self-insurance complies fully with the provisions of the California Labor Code. Determination of whether a self-insurance program meets the standards of the California Labor Code shall be solely in the discretion of the Contract Administrator.

The Workers' Compensation policy shall be endorsed with a waiver of subrogation in favor of the City for all work performed by the Contractor, its employees, agents, and subcontractors.

The City reserves the right to require complete copies of all required insurance policies at any time.
- 4.4.3 Deductibles and Self-Insured Retentions.** Contractor shall disclose to and obtain the written approval of City for the self-insured retentions and deductibles before beginning any of the services or work called for by any term of this Agreement. At the option of the City, either: the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects the City, its officers, employees, and volunteers; or the Contractor shall provide a financial guarantee satisfactory to the City guaranteeing payment of losses and related investigations, claim administration and defense expenses.

Contractor shall also indemnify, defend and hold harmless the City from all suits or claims for infringement of any patent rights, copyrights, trade secrets, trade names, trademarks, service marks, or any other proprietary rights of any person or persons because of the City or any of its officers, employees, volunteers, or agents use of articles, products things, or services supplied in the performance of Contractor's services under this Agreement, however, the cost to defend charged to Contractor shall not exceed Contractor's proportionate percentage fault.

The Contractor's obligation to defend and indemnify shall not be excused because of the Contractor's inability to evaluate Liability or because the Contractor evaluates Liability and determines that the Contractor is not liable to the claimant. The Contractor must respond within 30 days, to the tender of any claim for defense and indemnity by the City, unless this time has been extended by the City. If the Contractor fails to accept or reject a tender of defense and indemnity within 30 days, in addition to any other remedy authorized by law, so much of the money due the Contractor under and by virtue of this Agreement as shall reasonably be considered necessary by the City, may be retained by the City until disposition has been made of the claim or suit for damages, or until the Contractor accepts or rejects the tender of defense, whichever occurs first.

Notwithstanding the forgoing, to the extent this Agreement is a "construction contract" as defined by California Civil Code Section 2782, as may be amended from time to time, such duties of Contractor to indemnify shall not apply when to do so would be prohibited by California Civil Code Section 2782.

If this Agreement involved construction or maintenance then all provisions of this Agreement pursuant to which Contractor agrees to indemnify the City against liability for damages arising out of bodily injury to persons or damage to property relative to the construction, alteration, repair, addition to, subtraction from, improvement to, or maintenance of, any building, road, or other structure, project, development, or improvement attached to real estate, shall not apply to damages caused by or resulting from the active or sole negligence or willful misconduct of the City. The indemnifications provided herein shall not be limited to damages, compensation or benefits payable under insurance policies, workers' compensation acts, disability benefit acts, or other employees' benefit acts.

In the event that Contractor or any employee, agent, or subcontractor of Contractor providing services under this Agreement is determined by a court of competent jurisdiction or the California Public Employees Retirement System (PERS) to be eligible for enrollment in PERS as an employee of City, Contractor shall indemnify, defend, and hold harmless City for the payment of any employee and/or employer contributions for PERS benefits on behalf of Contractor or its employees, agents, or subcontractors, as well as for the payment of any penalties and interest on such contributions, which would otherwise be the responsibility of City.

**Section 6. STATUS OF CONTRACTOR.**

- 6.1 Independent Contractor.** At all times during the term of this Agreement, Contractor shall be an independent contractor and shall not be an employee of City. City shall have the right to control Contractor only insofar as the results of Contractor's services rendered pursuant to this Agreement and assignment of personnel pursuant to Subsection 1.3; however, otherwise City shall not have the right to control the means by which Contractor accomplishes services rendered pursuant to this Agreement. Notwithstanding any other City, state, or federal policy, rule, regulation, law, or ordinance to the contrary, Contractor and any of its employees, agents, and subcontractors providing services under this Agreement shall not qualify for or become entitled to, and hereby

agree to waive any and all claims to, any compensation, benefit, or any incident of employment by City, including but not limited to eligibility to enroll in the California Public Employees Retirement System (PERS) as an employee of City and entitlement to any contribution to be paid by City for employer contributions and/or employee contributions for PERS benefits.

- 6.2 **Contractor Not an Agent.** Except as City may specify in writing, Contractor shall have no authority, express or implied, to act on behalf of City in any capacity whatsoever as an agent. Contractor represents and warrants to City that Contractor and its employees, agents, any subcontractors shall, at their sole cost and expense, keep in effect at all times during the term of this Agreement any licenses, permits, and approvals that are legally required to practice their respective professions. In addition to the foregoing, Contractor and any subcontractors shall obtain and maintain during the term of this Agreement valid Business Licenses from City.
- 7.5 **Nondiscrimination and Equal Opportunity.** Contractor shall not discriminate, on the basis of a person's race, religion, color, national origin, age, physical or mental handicap or disability, medical condition, marital status, sex, or sexual orientation, against any employee, applicant for employment, subcontractor, bidder for a subcontract, or participant in, recipient of, or applicant for any services or programs provided by Contractor under this Agreement. Contractor shall comply with all applicable federal, state, and local laws, policies, rules, and requirements related to equal opportunity and nondiscrimination in employment, contracting, and the provision of any services that are the subject of this Agreement, including but not limited to the satisfaction of any positive obligations required of Contractor thereby.

Contractor may cancel this Agreement upon 30 days' written notice to City and shall include in such notice the reasons for cancellation.

In the event of termination, Contractor shall be entitled to compensation for services performed to the effective date of termination; City, however, may condition payment of such compensation upon Contractor delivering to City any or all documents, photographs, computer software, video and audio tapes, and other materials provided to Contractor or prepared by or for Contractor or the City in connection with this Agreement.

- 8.2 Extension.** City may, in its sole and exclusive discretion, extend the end date of this Agreement beyond that provided for in Subsection 1.1. Any such extension shall require a written amendment to this Agreement, as provided for herein. Contractor understands and agrees that, if City grants such an extension, City shall have no obligation to provide Contractor with compensation beyond the maximum amount provided for in this Agreement. Similarly, unless authorized by the Contract Administrator, City shall have no obligation to reimburse Contractor for any otherwise reimbursable expenses incurred during the extension period.
- 8.3 Amendments.** The Parties may amend this Agreement only by a writing signed by all the Parties.
- 8.4 Assignment and Subcontracting.** City and Contractor recognize and agree that this Agreement contemplates personal performance by Contractor and is based upon a determination of Contractor's unique personal competence, experience, and specialized personal knowledge. Moreover, a substantial inducement to City for entering into this Agreement was and is the professional reputation and competence of Contractor. Contractor may not assign this Agreement or any interest therein without the prior written approval of the Contract Administrator. Contractor shall not subcontract any portion of the performance contemplated and provided for herein, other than to the subcontractors noted in the proposal, without prior written approval of the Contract Administrator.
- 8.5 Survival.** All obligations arising prior to the termination of this Agreement and all provisions of this Agreement allocating liability between City and Contractor shall survive the termination of this Agreement.
- 8.6 Options upon Breach by Contractor.** If Contractor materially breaches any of the terms of this Agreement, City's remedies shall include, but not be limited to, the following:
- 8.6.1** Immediately terminate the Agreement;

  - 8.6.3** Retain a different contractor to complete the work described in Exhibit A not finished by Contractor; or
  - 8.6.4** Charge Contractor the difference between the cost to complete the work described in Exhibit A that is unfinished at the time of breach and the amount that City would have paid Contractor pursuant to Section 2 if Contractor had completed the work.

## **Section 9. KEEPING AND STATUS OF RECORDS.**

- 9.1 Records Created as Part of Contractor's Performance.** All reports, data, maps, models, charts, studies, surveys, photographs, memoranda, plans, studies, specifications, records, files, or any other documents or materials, in electronic or any other form, that Contractor prepares or obtains

pursuant to this Agreement and that relate to the matters covered hereunder shall be the property of the City. Contractor hereby agrees to deliver those documents to the City upon termination of the Agreement. It is understood and agreed that the documents and other materials, including but not limited to those described above, prepared pursuant to this Agreement are prepared specifically for the City and are not necessarily suitable for any future or other use. City and Contractor agree that, until final approval by City, all data, plans, specifications, reports and other documents are confidential and will not be released to third parties without prior written consent of both Parties.

- 9.2 Contractor's Books and Records.** Contractor shall maintain any and all ledgers, books of account, invoices, vouchers, canceled checks, and other records or documents evidencing or relating to charges for services or expenditures and disbursements charged to the City under this Agreement for a minimum of 3 years, or for any longer period required by law, from the date of final payment to the Contractor to this Agreement.
- 9.3 Inspection and Audit of Records.** Any records or documents that Subsection 9.2 of this Agreement requires Contractor to maintain shall be made available for inspection, audit, and/or copying at any time during regular business hours, upon oral or written request of the City. Under California Government Code Section 8546.7, if the amount of public funds expended under this Agreement exceeds \$10,000.00, the Agreement shall be subject to the examination and audit of the State Auditor, at the request of City or as part of any audit of the City, for a period of 3 years after final payment under the Agreement.

### SCOPE OF SERVICES

The Contractor will haul up to 5,000 wet tons of anaerobically digested Class A and B municipal sewage biosolids. Up to 500 wet tons of the biosolids will be Class A and have a moisture content of about 14%. The remaining biosolids are Class B with a moisture content of about 50%. Upon loading into trucks, the volume may be expected to expand by about 10%. The biosolids will be stockpiled on asphalt-paved drying beds at the Water Pollution Control Plant. There is good access and egress from the biosolids storage area. There is a sand drainage area within the mid-section of each bed. This drainage area must not be driven upon or crossed with heavy equipment. The beds or City property must not be damaged in any way.

The Laboratory analysis will be made available upon request. These biosolids will meet EPA Part 503 Biosolids Rule for **CLASS A or CLASS B BIOSOLIDS**.

The stockpiled biosolids might have areas within the stockpile that are hot, smoking and/ or smoldering. All loads must be covered; therefore, the Contractor will be responsible for cooling any hot spots to prevent possible damage to covers, tarps, etc.

Disposal options must be approved by the Contract Administrator for the City of San Leandro and positively confirmed. If the biosolids are to be spread on land, they must be applied at appropriate agronomic rates and the Contractor must obtain the necessary certifications and permits. The City will provide analysis for the material. The Contractor must select a disposal option and provide verification of that option prior to submitting their bid to the City. It is the Contractor's responsibility to select an option that conforms to applicable Federal, State, and local criteria for this particular material. Copies of all transportation and disposal documents are required by the City of San Leandro. The Project and/or other City employees may request to witness the placement of biosolids for land application.

#### **Biosolids Removal Strategy**

The Contractor shall load, haul, and legally dispose of the biosolids. The biosolids may be hauled up to four times over the term of the contract. Contractor shall pay for all equipment rental, permits, receiving facility fees, tariffs, and personnel costs incurred in legally disposing of the biosolids. Any negligence on the Contractor's part shall be rectified by the Contractor.

The contract is on a per ton basis. Tonnage may be determined by field- site scales supplied by the contractor; or by an off-site certified scale approved by the Contract Administrator prior to use, with documentation of each load required to be submitted to the Contract Administrator. Dust control shall be the responsibility of the Contractor during the loading and hauling operation. Plant effluent water (No. 3 water) is available for use by the Contractor if the Contractor wishes to lightly water down the loaded material to assist in dust control. Said practice shall be performed after each load weight has been determined. All trucks shall be tarped.

#### **Documentation**

The Contractor shall supply copies of transportation manifests for each load. The Contractor is solely responsible for cleanup of any spills on public or private streets or properties. The costs of any fines from improper management or accidental spillage shall be borne by the Contractor in its entirety.

**LIQUIDATED DAMAGES:** Failure to start and complete all work specified within the time allowed shall constitute material breach of contract. The "time allowed" will be calculated from the date of the Notice to Proceed through the end date indicated by the City in the Non-Professional Services Agreement. Failure of successful Bidder to complete the work or deliver the goods within the time allowed will result in damages, and for each consecutive day in excess, the contractor shall pay to the City the sum of \$250 per calendar day. Such amount shall not be construed as a penalty but as a minimum value of liquidated damages that may be deducted from payment due to the contractor if such delay occurs.

**EXHIBIT B**

**COMPENSATION SCHEDULE & REIMBURSABLE EXPENSES**

Biosolids hauling will be compensated at the rate of \$48.85 per ton. Tonnage may be determined by field-site scales supplied by the Contractor or by an off-site certified scale approved by the Contract Administrator prior to use, with documentation of each load required to be submitted to the Contract Administrator. The maximum compensation will be \$244,250.00 for 5,000 tons.

This project does not include hourly fees or reimbursable expenses.
