Commitment To Climate Change ACTION

*We Work To Become Knowlegable
Citizens of the world!*

San Leandro Divestment Campaign

Dear City Council,

11-5-19

My name is *Sam Linnovers* and I am a student at Bancroft Middle School. Our Earth Club marched in San Francisco at the Youth Climate March. We need our leaders to make decisions to protect my future from the Climate Crises.

You have a chance to change banks and choose a bank that doesn't invest in fossil fuels. Fossil fuels cause climate change and rising sea levels. They also endanger species. If banks don't invest in fossil fuel companies the companies won't have money to drill for more petroleum products. Make the right choice and select Bank of the West for San Leandro's banking.

I'm worried about the impact of Climate Change on my future and the future of endangered species in our San Leandro watershed and all across our planet.

Please fire Wells Fargo and hire Bank of the West. Bank of the West is investing in green energy.

Sincerely,

Sam Linnovers

Bancroft Middle School Student

11/5/19

Dear City Council,

My name is *Ellyanne Rodriguez* and I am a student at Bancroft Middle School. Our Earth Club marched in San Francisco at the Youth Climate March. We need our leaders to make decisions to protect my future from the Climate Crises.

You have a chance to change banks and choose a bank that doesn't invest in fossil fuels. Fossil fuels cause climate change and rising sea levels. They also endanger species. My name is Angel Sanchez and I am a student at Bancroft Middle School. Our Earth Club marched in San Francisco at the Youth Climate March. We need our leaders to make decisions to protect my future from the Climate Crises.

You have a chance to change banks and choose a bank that doesn't invest in fossil fuels. Fossil fuels cause climate change and rising sea levels. They also endanger species. If banks don't invest in fossil fuel companies the companies won't have money to drill for more petroleum products. Make the right choice and select Bank of the West for San Leandro's banking.

I'm worried about the impact of Climate Change on my future and the future of endangered species in our San Leandro watershed and all across our planet.

Please fire Wells Fargo and hire Bank of the West. Bank of the West is investing in green energy.

Sincerely, Angel Sanchez

Bancroft Middle School Student

You have a chance to change banks and choose a bank that doesn't invest in fossil fuels. Fossil fuels cause climate change, sea level rise and endanger species. If banks don't invest in fossil fuel companies the companies won't have money to drill for more petroleum products. Make the right choice and select Bank of the West for San Leandro's banking.

I'm worried about the impact of Climate Change on my future and the future of endangered species in our San Leandro watershed and all across our planet.

Please fire Wells Fargo and hire Bank of the West. Bank of the West is investing in green energy.

Sincerely, Salvador

Dear City Council,

My name is Nichols and I am a student at Bancroft Middle School. Our Earth Club marched in San Francisco at the Youth Climate March. We need our leaders to make decisions to protect my future from the Climate Crises.

You have a chance to change banks and choose a bank that doesn't invest in fossil fuels. Fossil fuels cause climate change, sea level rise and endanger species. If banks don't invest in fossil fuel companies the companies won't have money to drill for more petroleum products. Make the right choice and select Bank of the West for San Leandro's banking.

I'm worried about the impact of Climate Change on my future and the future of endangered species in our San Leandro watershed and all across our planet.

Please fire Wells Fargo and hire Bank of the West. Bank of the West is investing in green energy.

Sincerely, Nicholas VanOsting

My name is *Claudia Liliana Ceja Rodriguez* and I am a student at Bancroft Middle School. Our Earth Club marched in San Francisco at the Youth Climate March. We need our leaders to make decisions to protect my future from the Climate Crises.

You have a chance to change banks and choose a bank that doesn't invest in fossil fuels. Fossil fuels cause climate change and rising sea levels. They also endanger species. If banks don't invest in fossil fuel companies the companies won't have money to drill for more petroleum products. Make the right choice and select Bank of the West for San Leandro's banking.

I'm worried about the impact of Climate Change on my future and the future of endangered species in our San Leandro watershed and all across our planet.

Please fire Wells Fargo and hire Bank of the West. Bank of the West is investing in green energy.

Sincerely, *Claudia Liliana Ceja Rodriguez*

Bancroft Middle School Student

Dear City Council,

My name is *Jimena Montoya* and I am a student at Bancroft Middle School. Our Earth Club marched in San Francisco at the Youth Climate March. We need our leaders to make decisions to protect my future from the Climate Crises.

You have a chance to change banks and choose a bank that doesn't invest in fossil fuels. Fossil fuels cause climate change and rising sea levels. They also endanger species. If banks don't invest in fossil fuel companies the companies won't have money to drill for more petroleum products. Make the right choice and select Bank of the West for San Leandro's banking.

I'm worried about the impact of Climate Change on my future and the future of endangered species in our San Leandro watershed and all across our planet.

Please fire Wells Fargo and hire Bank of the West. Bank of the West is investing in green energy.

Sincerely,

Jimena Montoya
